

Ya....we know.

No one likes to take the poop test, but
it can save your life.

Your health records show that you are
due for colorectal cancer screening.

Just like the flu, colon cancer can
often be prevented.

This year, we've made it easy for you.
Get your flu shot and pick up your
FOBT (fecal occult blood test) kit at
the same time.

One stop for your flu shot & FOBT kit.

Special clinics have been set up for you to get your annual flu shot and if eligible, pick up your FOBT (fecal occult blood test) kit too.

We know it's icky.

But it only takes a few minutes every 2 years to know you are doing what you can to catch colon cancer early.

Everybody poops.

FOBT is a simple test that saves lives, and it's easy for you to do in the privacy of your own home. Come to a clinic to pick up your kit and everything you need to complete the test.

Call <Phone Number> today to book your appointment!

Location:

<Your Clinic Name>

<Your Clinic Address>

Check off the date you have booked & write your appointment time.

When caught early, there is a 90% chance that colorectal cancer will be cured.

It's not a pain in the butt.
